**Can't Afford
Your Medications?
Eastern Shore
Rural Health
can help!**

**Exceptional care.
Every patient.
Every time.**

**Medication Assistance is
available to our Patients.**

What is Medication Assistance and How Can a Caseworker Help Me?

If you qualify, the Medication Assistance Caseworker will submit an application to the drug company for approval. This could take 4 to 6 weeks.

- Some drug companies have agreed to provide certain medicines at no cost to help people who do not have prescription coverage.
- A few drug companies will even help with certain medicines when an insurance copay is extremely high.
- Rural Health administers a grant through the Virginia Health Care Foundation that allows uninsured patients to receive steep discounts on generic medications at either H&H or Rayfield's pharmacies. This is known as the Capture Rx 340B discount program.
- Coupons and discount cards.

Who Qualifies?

- Must be a patient of Eastern Shore Rural Health System, Inc.
- Patients who qualify are usually on sliding fee or have no prescription insurance.

How do I get started?

- Tell your doctor that you need help paying for your medicines. Your doctor will refer you to the Medication Assistance Caseworker.
- Call the Medication Assistance Caseworker to set up a meeting. Bring proof of income (1040 Federal tax forms and recent pay stubs).

If you qualify, the Medication Assistance Caseworker will submit an application to the drug company for approval. This could take 4 to 6 weeks.

How do I get medications?

- The Medication Assistance Caseworker will let you know when and where to pick up your prescription.

What about refills?

- It can take another 4 to 6 weeks for refills. Please call your Medication Assistance Caseworker six weeks after you receive your medicines to order a refill.

What does it cost?

- You may pay \$6.25, for each medicine, at the time you order the medicine. Usually you will receive a three month supply of medication for this charge.
